

# THANK YOU

Thank you for visiting my store. I have made these summer articulation calendars that are sound specific. There is also a generic one at the end that is not sound specific. Please print the ones that you need to send home with your students. If you have any questions or concerns, please contact me.

This resource has been a labor of love. By downloading these calendars you have purchased the right to use it for your own personal use. You may print it as often as you wish for your students or classroom. You may not copy, resell, or share downloads. If another teacher would like a copy please direct them to my store:  
<https://www.teacherspayteachers.com/Store/Simply-Savvy-Speechie>

# Dear Parents,

We have been working very hard on your child's articulation skills during this school year. It is important for your child to practice throughout the summer break in order to maintain the progress he or she has made so far.

I have included a calendar filled with activities for you to work on with your child this summer. Please work with your child to complete as many as these activities as you can during the summer months. They are all very quick and should be able to be completed in a short amount of time. Try to do as many as you can, but don't worry if you can't do them all! You can modify any activity to make it your own. The goal is to have fun and work on your child's speech and language goals in the process.

Most of all, I hope you enjoy your summer! I am looking forward to seeing your child again next school year!

Thanks for helping your child!

Speech-Language Pathologist
