

I am Moving!

Social Narrative

I am moving to a new house with my family. To get ready to move, first we will put all of our belongings into boxes to take them to the new house. This is called packing.

We will take all of our furniture to the new house too. The boxes and furniture will be moved to the new house on a big truck. All of my toys and clothes will also go to the new house.

The new house will have bedrooms, bathrooms, a kitchen, a living room, a front yard, and a back yard.
